

# SHIKSHA PRAYAS

## February Highlights

Amidst revision tests and extra hours of study, February rolled out with exam tips from the experts, then glided into a fix-and-mend workshop, a peppy little farewell for outgoing students, and a joyful English lesson with NCR Atleos volunteers.

Work Hard, Work Smart

---

A wealth of practical tips and advice flowed from the very best for our young ones. Mentors from IIT Madras hosted an excellent session online on the 1st of February that delved deep into studying habits. Through very doable steps, they demonstrated how exam stress cannot just be overcome, but actually be made enjoyable.

## Balram Does it Again!

---

And when you enjoy what you do, no work is ever hard. Balram Kumar makes winning look so easy. His latest trophy is a Gold in Print Making at the Annual Art Exhibition 'Amifest' 2025 organised by Amity University. Congratulations, Balram! It's a joy to see you grow.

# SHIKSHA PRAYAS

## Let's Fix It

Think before you throw. This was the objective of the third of our Life Skill Series. Students brought various objects from home that were on the verge of being dumped, but a little creativity and support from their peers and teachers got them working again. A cracked fuel tank cover, a toy drone, and a cycle horn were some of the items that got fixed right here in our centres.

*Work in progress....*

POLAR, TARAORI, KANHAI

It was an eye-opener of an exercise, and we hope to better on it, and ingrain sustainability into our everyday living.

# SHIKSHA PRAYAS

All work and no play?

Not in FTC Siwan, for sure! Class X students were given a warm send-off on the 12th of February by friends and teachers

---

Welcome, Syneos Health India...

---

...and a big thank you for joining forces with us. It is indeed heartwarming to see your team's eagerness to work closely with our students at Kanhai, and the activity plans you've been sharing for their academic break in March. We're very excited about the value this collaboration will bring about.

NCR Atleos meanwhile, is tapping the best from Kanhai students, through interactive games and vocabulary building exercises. We are very pleased with the excitement these sessions have generated. Credit for the last session goes entirely to Banprit Kaur, Sidhanth Vijat Singh and Prashant Pandey.

---

Thank you, dear Teachers.

---

Our teachers are the backbone of the organisation, giving their absolute best to every single student, no matter how uphill the task. We'll leave you with this image, which speaks volumes of their commitment. This is Shivani Ma'am, Teacher at Kanhai FTC, tutoring a single student with the same passion as she does with a group. Attendance in Class IV is sometimes affected by a change in school timings, but she strives on.

Shivani represents all our teachers and centre heads who are working selflessly towards the Shiksha Prayas mission. Thank you to each one in the team.

So, we'll see you around next month, with more snippets and developments. Till then,

Best wishes,  
The Shiksha Prayas Team
